LUMENFOLD INTERACTIVE

BELL STATE

A coherence experience for five receivers · 3–5 players (5 recommended) · about 90–120 minutes

---

START HERE

1 **Phones out, sound on.**

Each player needs their own phone. Mobile data is fine.

2 **Take a receiver card.**

Scan it (or the code on the relay screen) and enter the four letters shown there.

3 **Open your line.**

Tap “Open your line” and keep that page open all game.

4 **Begin.**

When everyone is in, press Begin on the relay screen.

5 **Listen to the relay.**

It tells you when to open each folio. Never before.

ON THE TABLE

Three sealed folios (A, B, C) · five receiver cards · scissors · tape

Stuck at any point? Ask your line for Help on your phone.

CK RELAY
Receiver notes

BELL STATE
Folio A · 1 of 2

A coherence relay has reached you. These notes are all the instruction it can send.

01 **YOUR RECEIVER**
Your phone is a receiver. It holds one line. It keeps its place if it sleeps or reloads.

02 **THE RELAY SCREEN**
Shows what the relay knows: the lines, every transmission, and the time left.

03 **FOLIOS**
Sealed folios open only when the relay says so. Not before.

04 **IF A RECEIVER GOES DARK**
Any other receiver can patch in for it: ☰ › Patch in.

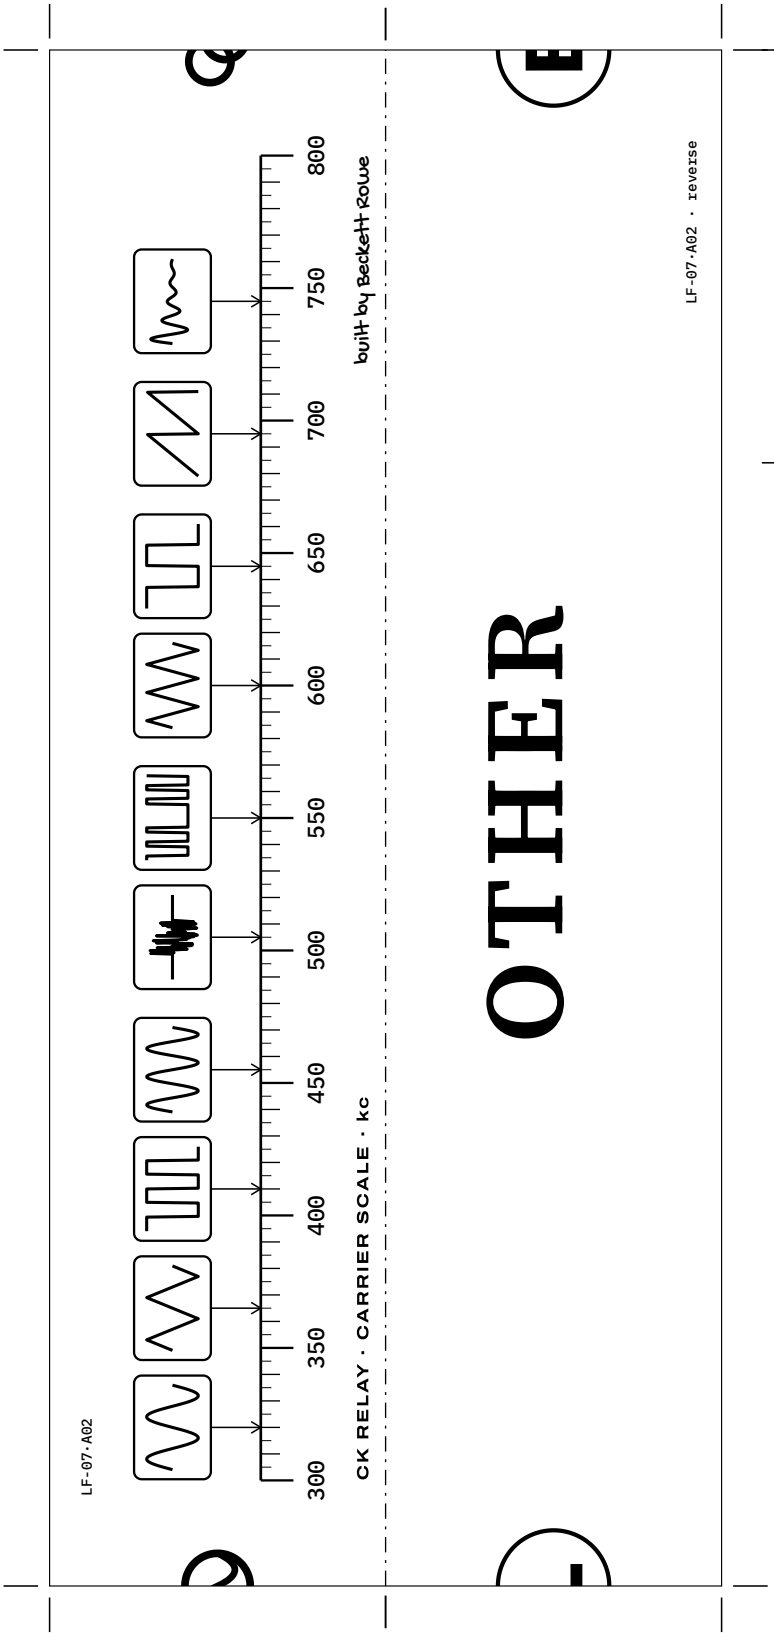

05 **WHEN YOU ARE STUCK**
Your line can help. Each request costs bandwidth; bandwidth returns as lines stabilise.

06 **THE PAPER**
When a folio opens, cut its pieces out along the solid lines. Some fold. Keep the tape close.

Standing orders — test day

WHERE I WILL BE

Blocks on the duty tape are framed by site: Holloway Annex

I can't be in two places at once,
whatever the board thinks. Anything on the tape
booked where I'm not, while I'm not there:
fold it away. Leave the rest exactly as written.
What's left is my authorization.

FOLDING A BLOCK AWAY

▼ fold back at the left edge

▽ fold forward at the middle

side view: the sides meet

CK RELAY · FIELD CARD 7

for the operator at the far end

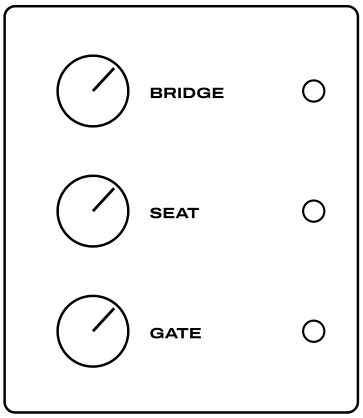

Re-seating a line

The operator can see the panel but not the settings. Read him each setting when he asks.

1. **BRIDGE**
   Set the bridge to the carrier of whoever stayed put.

2. **SEAT**
   Seat the anchor where most of the crew stood when the log began.

3. **GATE**
   Hold open the gate the leaver took.

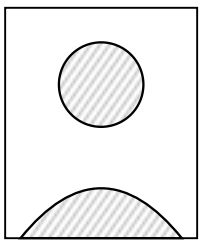

remote panel

If the operator is not on the line, he will try again. Lines are anonymous; say settings, not names.
